INDEX FOR VOLUME 73, 2016

REVIEW

Alcohol dependence - neurobiology and treatment. No. 1, p. 3

*Cantharellus cibarius* – culinary-medicinal mushroom content and biological activity. No. 3, p. 589

Chlorogenic acid: a pharmacologically potent molecule. No. 4, p. 851

Chromatographic techniques in pharmaceutical analysis in Poland: history and the presence on the basis of papers published in selected Polish pharmaceutical journals in XX century. No. 3, p. 605

Coronary effect of fibrates on proteins and enzymes which hydrolyze triacylglycerols. No. 3, p. 579

Economic issues in therapeutic drug monitoring. No. 3, p. 599

Electron donor acceptor descriptors of the single and double bonded substituent and heteroatom incorporation effects. A review. No. 2, p. 269

*Epicoccum* sp., an emerging source of unique bioactive metabolites. No. 1, p. 13

Evolving scenario of pharmaceutical care in Pakistan and other countries: health impact assessment in public health practice. No. 5, p. 1101

Experimentally-induced animal models of prediabetes and insulin resistance: a review. No. 4, p. 827

Inhibitors of leukotrienes synthesis: novel agents and their implementation. No. 4, p. 843

Levomilnacipran - a successor of milnacipran with a higher noradrenergic selectivity. No. 2, p. 285

Methods for obtaining poly-ε-caprolactone for producing micro- and nanoscale drug carriers. No. 4, p. 811

Pellets and pelletization: emerging trends in the pharma industry. No. 6, p. 1415

Pharmacological assessment of hispidulin - a natural bioactive flavone. No. 3, p. 565

Potential approaches for reducing amyloid β production. No. 4, p. 835

Risk factors, pathogenesis and pharmaceutical approaches for treatment of steroid-induced bone infarction of femoral head. No. 3, p. 557

Vitamin D in Alzheimer’s disease - prophylaxis or therapy? Pellets and pelletization: emerging trends in the pharma industry. No. 6, p. 1427

Vortioxetine – the new antidepressant agent with procognitive properties. No. 6, p. 1433

ANALYSIS

2D LC heart cutting on-line of phenolic compounds from three species of the genus *Salix*. No. 4, p. 885

A simple and sensitive stability-indicating UHPLC-DAD method for determination of cefetamet pivoxil hydrochloride. No. 3, p. 621

Analysis of ω-3 fatty acid content of Polish fish oil drug a dietary supplements. No. 4, p. 875

Creatinine determination in urine by liquid chromatography-electrospray ionization-tandem mass spectrometry method. No. 2, p. 303

Decoction process optimization and quality evaluation of Yi-Huang decoction by HPLC fingerprint analysis. No. 4, p. 855
Determination of tenoxicam in plasma by reverse phase HPLC method using single step extraction technique: A reliable and cost effective approach.

Effect of microwave power on shape of EPR spectra - application to examination of complex free radical system in thermally sterilized acidum boricum.

Environmentally friendly LC/MS determination of eplerone in human plasma.

HPLC-UV assay of imatinib in human plasma optimized for bioequivalence studies.

Free radical formation in rosuvastatin during thermal sterilization at different temperatures.

Identification and determination of rupatidine and fexofenadine by densitometric method.

Interaction of camptothecin with human serum albumin determined by fluorescence anisotropy spectroscopy.

Investigation and optimization of titrimetric and spectrophotometric methods for the assay of flunarizine dihydrochloride using in situ bromine.

Investigation of a mixture containing alprazolam, codeine, and paracetamol using thin-layer and high performance liquid chromatography methods.

Optimization and validation of HPLC method for tetramethrin determination in human shampoo formulation.

Quantification and pharmacokinetics of 1-methylpyridinium and 1,4-dimethylpyridinium in rats by liquid chromatography tandem mass spectrometry. Tissue distribution of 1,4-dimethylpyridinium in rats.

Rapid spectrophotometric determination of trifluoperazine dihydrochloride as base form in pharmaceutical formulation through charge-transfer complexation.

RP-HPLC analysis of acidic and basic drugs in systems with diethylamine as eluents additive.

Stability of cefpirome sulfate in aqueous solutions.

Studies on stability of 2,3-diphenylcyclopropenone in contact with water and aqueous NaCl solutions. Conclusions for purpose of topical therapy of patients with alopecia areata.

The comparison of the stability indicating two HPLC methods and their application for determination of bosentan in coated tablets.

Trace metal content (Cu, Zn Mn, and Fe) in Urtica dioica L. and Plantago major L.

Unusually stable adduct between metanolyzed amoxicillin or ampicillin and their diketopiperazine derivatives.

**DRUG BIOCHEMISTRY**

5`-Nucleosidases of Naja naja karachiensis snake venom: their determination, toxicities and remedial approach by natural inhibitors (medicinal plants).

Anti-adhesive and anti-biofilm activities in vitro of linezolid, vancomycin, tigecycline and daptomycin against Staphylococcus haemolyticus.

Antioxidant activity of xanthone derivatives.

Antiproliferative effects on breast cancer cells and some interactions of new distamycin analogues with DNA, endonucleases and DNA topoisomerases.

Blockade of large conductance Ca++ activated K+ channel may protect neuronal cells from hypoxia mimetic insult and oxidative stress.
Conjugated linoleic acids decrease the breast cancer risk in DMBA-treated rats.

Cyclosporin A affects the proliferation process in normal human dermal fibroblasts.

Cytotoxic and genotoxic studies of quercetin, quercetin sodium salt and quercetin complexes with nickel(II) and zinc(II).

Effect of Colla Cornus Cervi combined with LV-mediated BMP7 transfected BMSCs on ANFH in rats.

Effect of paracetamol on melanization process in human epidermal melanocytes.

Fluphenazine and perphenazine impact on melanogenesis and antioxidant enzymes activity in normal human melanocytes.

*In vitro* antifungal activity of 2,4-dihydroxy-N-(3-thioxo-3H-1,2,4-dithiazol-5-yl) benzenecarbothioamide.

*In vitro* inhibition of HHV-1 replication by inosine pranobex and interferon-α.

Inactivation of aldehyde dehydrogenase by nitroglycerin in the presence and absence of lipolic acid and dihydrolipolic acid. Implications for the problem of differential effects of lipolic acid *in vitro* and *in vivo*.

Intracellular antioxidant activity of a *Streptomyces* sp. 8812 secondary metabolite, 6,7-dihydroxy-3,4-dihydroisoquinoline-3-carboxylic acid and its synthetic derivatives.

New renin inhibitors – stability and activity determination. Part III.

Protective effect of *Lactuca serriola* on doxorubicin-induced toxicity in H9C2 cells.

Repeated exposure of sodium tellurite on the rat liver an on the potential mechanisms of the metalloid-induced hepatotoxicity.

Serum antioxidant parameters in patients poisoned by different xenobiotics.

The effect of methanol used as vehiculum on serum phenacetin concentration in the rat.

**DRUG SYNTHESIS**

2-Azetidinone derivatives: Synthesis, antimicrobial, anticancer evaluation and QSAR studies.

Design, synthesis and anticancer activity of some novel 1,2,4-triazoles carrying biologically active sulfonamide moieties.

Design, synthesis and biological evaluation of new pyrroloazepines with potential and selective antitumor activity.

Design, synthesis, molecular docking and anti-breast cancer activity of novel quinazolinoines targeting estrogen receptor α.

*In silico* ADME studies of polyamine conjugates as potential anticancer drugs.

New spirohydantoin derivatives - synthesis, pharmacological evaluation and molecular modeling study.

Preliminary evaluation of central nervous system activity of (E)-N-2-methyl-3-phenylprop-2-enyl ((E)-α-methylcinnamyl) derivatives of selected aminoalkanols.

Synthesis and antimicrobial activity of 5-substituted 4-thiazolidones with sulfanilamide pharmacophore.
Synthesis and antimicrobial properties of new mandelate ionic liquids. No. 3, p. 705

Synthesis and immunoregulatory properties of selected 5-amino-3-methyl-4-isoxazolcarboxylic acid benzylamides. No. 5, p. 1201

Synthesis and pharmacological activity of imidazo[2,1-b][1,3,4]thiadiazole derivatives. No. 4, p. 937

Synthesis, antimicrobial, anticancer evaluation and QSAR studies of thiazolidin-4-one derivatives. No. 1, p. 93

Synthesis, biological evaluation and molecular docking studies of aromatic sulfonamide derivatives as anti-inflammatory and analgesic agents. No. 5, p. 1163

Synthesis, characterization and biological evaluation of new fused triazine derivatives based on 6-methyl-3-thioxo-1,2,4-triazin-5-one. No. 1, p. 79

Synthesis of imidazo[2,1-b][1,3,4]thiadiazole derivatives as possible biologically active agents. No. 4, p. 913

Synthesis, structure and pharmacological evaluation of 1-(1H-pyrrol-1-ylmethyl)-4-azatricyclo[5.2.1.02,6]dec-8-ene-3,5-dione. No. 4, p. 931

Synthetic derivatives of isoquinoline, dicarboxylic acids imides and thioimides as bioactive compounds. No. 5, p. 1181

Thiourea derivatives of 4-azatricyclo[5.2.2.02,6]undec-8-ene-3,5-dione - synthesis and biological activity. No. 3, p. 693

NATURAL DRUGS

Activity of thyme oil (Oleum Thymi) against multidrug-resistant Acinetobacter baumannii and Pseudomonas aeruginosa. No. 4, p. 975

Analgesic, antipyretic and anti-inflammatory activities of Grewia asiatica fruit extracts in albino mice. No. 4, p. 983

Antibacterial and antioxidant activity of methanolic extract of Zaleya pentandra. No. 1, p. 147

Antidiabetic and antidyslipidemic effects of Heliotropium strigosum in rat models of type I and type II diabetes. No. 6, p. 1575

Anti-inflammatory, analgesic and antipyretic activities of the aqueous methanolic extract of Berberis calliobotrys in albino mice. No. 3, p. 717

Antimicrobial and antibiofilm effects of extracts from Trapa natans L., evaluation of total phenolic and flavonoid contents, and GC-MS analysis. No. 6, p. 1565

Antioxidant, antibacterial, and gut modulating activities of Kalanchoe laxiniaria. No. 5, p. 1221

Antioxidant properties of methanolic extracts from the shoots and roots of pHi transformed plants of Rehmania glutinosa Libosch. No. 2, p. 433

Anti-oxidative, α-glucosidase and α-amylase inhibitory activity of Vitis doniana: possible exploitation in the management of type 2 diabetes. No. 5, p. 1235

Antiradical and antimicrobial activity of phenolic fractions obtained from honeys. No. 2, p. 379

Application of dry hawthorn (Crataegus oxycaetha L.) extract in natural topical formulations. No. 4, p. 955

Assessment of some biological activities of Alyssum L. known as madwort. No. 5, p. 1213
Chemical constituents and *in vitro* antioxidant activity of crude extracts and compounds from leaves, and stem bark of *Ficus hueti-davry*. No. 6, p. 1593

Commercial extract from aronia as a modulator of adhesive properties of fibrinogen treated with homocysteine and its thiolactone *in vitro*. No. 6, p. 1609

Cytotoxic effects of the Red Sea soft coral *Sacrophytton trochliophorum*. No. 6, p. 1587

Effect of jasmionic acid on total phenolic content and antioxidant activity of extract from the green and purple landraces of sweet basil. No. 5, p. 1229

Effect of *Perilla frutescens* extracts and rosmarinic acid on rat heart mitochondrial functions. No. 1, p. 135

Evaluation of anti-inflammatory, analgesic and antipyretic activities of aqueous and ethanolic extracts of seeds of *Buchanania lanzan* Spreng. in animal models. No. 6, p. 1601

Evaluation of the tea tree oil activity to anaerobic bacteria - *in vitro* study. No. 2, p. 389

*In vitro* acetylcholinesterase and butyrylcholinesterase inhibitory potentials of *Jatropha gossypolia* plant extracts. No. 2, p. 419

*Phytochemistry, antioxidative activity and inhibition of key enzymes linked to type 2 diabetes by various parts of *Aframum melegueta* in vitro*. No. 2, p. 403

Preliminary investigation of normoglycemic, anti-hyperglycemic and dyslipidemic activities of different extracts of *Tinospora crispa* on diabetic rat. No. 1, p. 129

Production of antimicrobial peptides by *Epicoccum* sp. NFW1: an endophyte of *Taxus fauna*. No. 6, p. 1555

Protective effect of pomegranate seed oil against mercuric chloride-induced hepatotoxicity in rat. No. 4, p. 991

Secondary metabolites isolated from two medicinal plant species, *Bridelia micrantha* and *Sideroxylon inerme* and their antioxidant activities. No. 5, p. 1249

Testing pharmaceutical release of active substances from medicinal products containing St. John’s wort. No. 2, p. 395

Wound healing activity of extract from *Thymus daenensis* in burn wound model: an experimental animal study. No. 6, p. 1615

**PHARMACEUTICAL TECHNOLOGY**

A study of compression process and properties of tablets with microcrystalline cellulose and colloidal silicon dioxide. No. 5, p. 1259

Assessment of guar and xanthan gum based- floating drug delivery system containing mefenamic acid. No. 5, p. 1287

Comparative bioavailability analysis of oral alendronate sodium formulations in Pakistan. No. 4, p. 999

Determination of antimicrobial activity of chlorhexidine gel. No. 6, p. 1623

Development and characterization of smart drug delivery system. No. 4, p. 1009

Development and verification of new solid dental filling temporary materials containing zinc. Formula development stage. No. 3, p. 749
Development of olanzapine loaded PNA microgels for depot drug delivery in treatment of schizophrenia: \textit{in vitro} and \textit{in vivo} release profile. No. 1, p. 175

Development of solid lipid nanocarriers for oral delivery of candesartan cilexetil. No. 6, p. 1631

Dissolution and compatibility study of binary and ternary interactive mixtures of indomethacin: comparison with commercially available capsules. No. 3, p. 739

Dissolution kinetics studies of clopidogrel from selected multisource coated tablets with application of capillary zone electrophoresis method. No. 1, p. 197

Effect of polymer and plasticizer on thin polymeric buccal films of meloxicam designed by using central composite rotatable design. No. 5, p. 1351

Effect of simultaneously silicified microcrystalline cellulose and pregelatinized starch on the theophylline tablets stability. No. 4, p. 1029

Fabrication and \textit{in vitro} evaluation of 5-fluorouracil loaded chondroitin sulfate-sodium alginate microspheres for colon specific delivery. No. 2, p. 495

Formulation and evaluation of microspheres containing losartan potassium by spray drying technique. No. 5, p. 1275

Formulation and \textit{in vitro} evaluation of acyclovir loaded polymeric microparticles: a solubility enhancement study. No. 5, p. 1311

Formulation development of topical cream loaded with \textit{Ananas comosus} extract: \textit{In vivo} evaluation for changes in skin barrier function using biophysical techniques. No. 2, p. 485

Formulation, evaluation and \textit{in vitro} dissolution performance of enalapril maleate sustained release matrices: effect of polymer composition and viscosity grade. No. 4, p. 1037

Identification of pharmaceutical excipient behavior of chickpea (\textit{Cicer arietinum}) starch in glitazide immediate release tablets. No. 2, p. 469

Impact of formulation and processing parameters on the release characteristics from hydroxypropyl methylcellulose matrix tablets of diclofenac. No. 2, p. 439

Kinetics study on ketoprofen release from mini tablets and multi-compartment system. No. 3, p. 731

Level A \textit{in vitro-in vivo} correlation development for tramadol hydrochloride formulations. No. 5, p. 1333

Modeling and biopharmaceutical evaluation of semisolid systems with rosemary extract. No. 1, p. 153

New approach to the study of mucoadhesiveness of polymeric membranes using silicone discs. No. 2, p. 479

Optimization of furosemide liquisolid tablets preparation process leading to their mass and size reduction. No. 5, p. 1325

Pharmaceutical quality of generic atorvastatin products compared with the innovator product: a need for revising pricing policy in Palestine. No. 3, p. 725

Predictive pharmacokinetics of tramadol hydrochloride floating tablets. No. 3, p. 755

Preparation and characterization of orally disintegrating loratadine tablets manufactured with co-processed mixtures. No. 2, p. 453

Preparation and evaluation of pH responsive poly(2-hydroxyethyl methacrylate-co-itaconic acid) microgels for controlled drug delivery. No. 4, p. 1045

Preparation, \textit{in vitro} and \textit{in vivo} characterization of hydrophobic patches of a highly water soluble drug for prolonged plasma half life: effect of permeation enhancers. No. 6, p. 1639
Physical and chemical stability analysis of cosmetic multiple emulsions loaded with ascorbyl palmitate and sodium ascorbyl phosphate salts. No. 5, p. 1339

Relative bioavailability of risendronate sodium administered in superabsorbent copolymer particles versus oral solution to normal healthy rabbits. No. 5, p. 1267

Relative bioavailability study of succinic acid cocrystal tablet and marketed conventional immediate release tablet formulation of carbamazepine 200 mg in rabbits. No. 4, p. 1023

Studies of the crystalline form of cefuroxime axetil: implications for its compatibility with excipients. No. 5, p. 1299

Study of dual matrix tablets containing hypromellose of different viscosity degree and glyceryl dibehenate. No. 2, p. 461

Synthesis and in vitro characterization of hydroxypropyl methylcellulose - graft-poly(acrylic acid/2-acrylamido-2-methyl-1-propanesulfonic acid) polymeric network for controlled release of captopril. No. 1, p. 183

The process of mass transfer on the solid-liquid boundary layer during the release of diclofenac sodium and papaverine hydrochloride from tablets in a paddle apparatus. No. 1, p. 163

**PHARMACOLOGY**

Anti-inflammatory and antioxidant activity of 8-methoxy-1,3-dimethyl-2,6-dioxo-purin-7-yl derivatives with terminal carboxylic, ester or amide moieties in animal models. No. 3, p. 761

Blood count in patients with multiple sclerosis treated with mitoxantrene in short time observation. No. 5, p. 1369

Comparative bioavailability of a fixed dose combination tablet of olmesartan medoxomil/hydrochlorothiazide in healthy Korean volunteers. No. 2, p. 509

Effect of dietary flavonoid naringenin on bones in rats with ovariectomy-induced osteoporosis. No. 4, p. 1073

Effect of glabridin and glycyrrhizic acid on histomorphometric parameters of bones in ovariectomized rats. No. 2, p. 517

Excretion of ethyl glucuronide in the urine of Warsaw high preferring rats depends on the concentration of ingested ethanol. No. 4, p. 1067

In vivo evaluation of skin irritation potential, melasma and sebum content following long term application of skin care cream in healthy adults, using non-invasive biometrological techniques. No. 1, p. 219

Neuromodulatory effects of thymoquinone in extenuating oxidative stress in chlorpromazine treated rats. No. 2, p. 529

Quinidine and domperidone interactions in the rat experimental model of repeated administration. No. 4, p. 1057

The influence of montelukast on the activity of the autonomic nervous system estimated by heart rate variability in experimental partial bladder outlet obstruction in rats. No. 3, p. 777

The investigation of effect of flurbiprofen axetil on the tissue growth and the content of PGE₂ in cervical cancer. No. 6, p. 1649

The posology and trough concentrations of digoxin in adult and elderly patients. No. 5, p. 1361
GENERAL

Adverse drug reporting in community pharmacy practice in the Pomeranian district in Poland. No. 5, p. 1389
Assessment of practice at retail pharmacies in Pakistan: Extent of compliance with the prevailing drug law of Pakistan. No. 3, p. 803
Budesonide treatment of professional athletes and anti-doping testing - case studies. No. 1, p. 229
Effect of therapy with anti-TNF α drugs and DMARD on disease activity and health related quality of life among women with rheumatoid arthritis. No. 2, p. 547
Evaluation of drug use indicators for non-communicable diseases in Pakistan. No. 3, p. 787
Evaluation of the treatment costs of asthma exacerbations in outpatients. No. 1, p. 239
Excretion of ethyl glucuronide in the urine of Warsaw high preferring rats depends on the concentration of ingested ethanol. No. 4, p. 1073
Lipid profile of Polish primary care patients aged 35-55 years living in the district of Pleszew. No. 2, p. 537
Patients’ knowledge of medical patches in Hungary. No. 6, p. 1653
Pharmaceutical care form application in elderly patients research. No. 5, p. 1375
Prospects for development of pharmacy in Poland until the year 2030. The document of the national section of pharmaceutical care of the Polish Pharmaceutical Society. No. 1, p. 255
Role of the international organizations in preventing the counterfeit medicines entry into the world markets. No. 5, p. 1381
RX-to-OTC switch and double registration occurrence in Poland - an illuminative case study. No. 1, p. 247
Socio-economic constrains faced by tuberculosis patients that lead to non-compliance - a cross sectional study in Southern Punjab, Pakistan. No. 6, p.
Television advertising of selected medicinal products in Poland and in The United States – a comparative analysis of selected television commercials. No. 4, p. 1083

SHORT COMMUNICATION

Chemical components and variability of the Carduus spp. No. 5, p. 1405
Evaluation of spermicidal property of Hippophae rhamnoides L. berries. No. 6, p. 1671
