

Latest news from the PBP World Meeting

In times of the corona pandemic, the organisers are proud to announce that ...

... already more than 750 delegates registered for the event
... the accompanying exhibition ResearchPharm® is well booked with 58 exhibitors

... 512 accepted poster presentations, 72 oral short talks and 43 invited speaker talks!

The PBP World Meeting will be held as a face-to-face meeting. The organizers have decided to carry out the PBP World Meeting in Rotterdam from 28-31 March 2022 in presence, pending on governmental decisions and rules. Of course all legal requirements of the Netherlands, the city of Rotterdam and the conference centre will be respected and fully implemented. A hygienic concept according to the applicable legislation will be in operation.

**A certificate/proof which shows you have been fully vaccinated, have recovered or have tested negative - has to be shown to enter the event.
The safety of the participants is placed first!**

COVID 19 information

A general overview and the latest information from the Dutch government regarding the corona virus as well as in regards to travelling to the Netherlands can be found here.

Travelling to the Netherlands with proof of vaccination

People travelling from within the EU/Schengen area who can show proof of vaccination can travel to the Netherlands. Travellers from outside the EU/Schengen area must always show a negative test result as well. [Click here for the latest requirements for travelling to the Netherlands.](#)

Useful news:

* [From 2 February 2022 travellers from very high-risk areas do not have to quarantine if they:](#)

- are fully vaccinated; and
- received their booster vaccination at least 7 days before travelling to the Netherlands.

* [Click here to check your trip! Travel well prepared.](#)

Know what you need to arrange before you travel to the Netherlands. Even when you're already vaccinated.
